## **Product Backgrounder Celazome® Eyelyph Serum**

The eye area is very sensitive and one of the first areas of your face to show visibly age, fatigue and other environmental conditions that affect the skin. *Celazome® Eyelyph Serum* reduces these visible signs safely, rapidly and effectively. A *Dermazone Skinperative™*, this potent antioxidant blend helps reduce fine lines and wrinkles safely in the delicate eye area. The *Dermazone Skinperative* designation indicates products that have multi-purpose properties from which virtually any type of skin can benefit. In addition to its wrinkle-fighting properties, the dramatic lessening of dark circles and puffiness around the eyes has netted *Celazome Eyelyph Serum* a huge following amongst both women and men.

*Celazome Eyelyph Serum* is a member of the Celazome® Treatment line. Celazome Treatments correct, improve, and resurface and maximize the effectiveness of other Celazome products. Designed to tackle some of skin's most dramatic problems, the properties of Lyphazome® delivery ensure gentle care and hydration are elements of each treatment.

Dermazone Solutions, LLC is the provider of the Celazome cosmeceutical skin care line and the Lyphazome® product line of therapeutic moisturizers and sunscreens. These products can now be purchased from Dermazone via the company's website ([www.dermazone.com](http://www.dermazone.com)). Consumers can benefit from Dermazone Solutions' launch of its *Skinperative™ Online Analyzer*, a question and answer program for consumers serves as a virtual aesthetician, analyzing consumers skin type, external factors and lifestyle and providing a recommendation for the most appropriate Celazome skin care regimen.
